BelCor Interiors is an Italian company based in the heart of Brianza since 1970, celebrating in 2022 the 45th anniversary of its first attendance to Salone del Mobile Milano. Corti family's traditions and legacy are handed down for generations to design and create furniture of excellence, unique and authentic works of art. The research for an elegant and refined rareness moves every BelCor project. BelCor's purpose is to carry on this kind of search, believing that the luxury of classic style furniture can steal the primacy from fleeting trends, giving back to interiors the idea of timeless allure. The knowledge made of traditions handed down through time preserves the secret of the incomparable quality of Made in Italy craftsmanship. Luxury finds its place between an entirely handmade production, customized furniture pieces and tailor-made interior design projects that can satisfy any client's ideals and needs. BelCor Interiors represents a new classicism where every handmade piece of furniture embodies the head architects' creative soul. Nothing is predicted or taken for granted; it is just pure inspiration and sensibility, a touchable emotion.
