PROPHILO

EXCLUSIVE INTERIORS

We are pleased to present an innovative project that joins the two souls of the company, **BelCor** and **PROPHILO**, in a shared and prestigious vision of Interiors.

Different Collections communicate with each other through the relationship and multiplicity of details, precious materials, high-quality craftsmanship and aesthetic standards for a **perfect combination of tradition and innovation.**

The common goal is to create customized complete interior projects that offer unique solutions. Bespoke projects are completed with rugs, chandeliers, curtains and artworks.

Nothing is predictable, it is pure inspiration, creativity, an **exciting experience of Made in Italy.**

LIVING ROOM

FEATURED COLLECTIONS:

EMPIRE · ARTES · CARISMO · GIUDECCA · ASTRUM
BORGIA · SABATINA · VENUS · FLAVIA

Prophilo _ EMPIRE Modular Sofa _ EMP0401
BelCor _ Column _ Flavia Coll. _ FA0331NX

Prophilo _ ASTRUM Chandelier _ ASM0201

The ASTRUM Chandelier is a masterful example of **crystal processing of Murano art** and creative design that involves all the elements for a complete interior. Unique projects and **extraordinary artistic works of light** come to life.

The two plates are separated and arranged according to a well-studied alignment. Together the two elements have a **linear development of approximately 4.30 meters**.

The **hand-shaped metal structure** hangs from the ceiling plate. It winds sinuously through the air with a **carefully designed 3D movement**, creating a fascinating scenic effect.

The two chandeliers move and interpenetrate in a magical way, **like an embrace**, enveloping themselves in the central part that descends towards the table below and the fulcrum of the living room.

The **214 crystals** are fixed to the metal structure by carefully arranged cables at different heights, enhancing an even greater dynamic sense of movement and light. The crystal pendants are **handcrafted through the ancient Murano techniques**.

The **finish of the metal structure is finely designed**, matching the elements of the whole interiors.

We design each chandelier individually, studying its shape, movement, dimensions, colors and finish. For each project we create **real jewels of light**.

Prophilo _ CARISMO Central small table _ CAS0288CX
Prophilo _ GIUDECCA Round side table _ GIU0281MK

The beauty of minimal shapes and the elegance of fine materials characterize the essence of the new **ARTES Modular bookcase**.

Its modular nature makes **any kind of customization possible**. Rigorous volumes and orthogonal lines are masterfully combined with the **artifice of the hand-painted artistic composition** in the backrests of the open modules.

Different sizes of modules can be arranged to create various compositional schemes, alternating open compartments and closed doors.

The **wooden structure of the bookcase is in Kotò**, with its distinctive linear grain. Presented with a **double finish**. Darker tones on the front surface and in the closed panels, it has lighter shades in the internal compartments and wooden backs. In this way, the library is enriched with depth and volume.

The special feature of this modular bookcase lies in the artifice of its **double backrest** of the various open modules, combined in **wood and glass**.

The wooden backs, made with the same finish and wooden essence as the internal compartments, create homogeneous compartments and a continuity of lines and colors.

The glass backrests, placed before the wooden ones, are **masterfully decorated by hand by our skilled artists**. This pictorial decoration is meticulously studied throughout the entire composition of the bookcase and transforms it into a **true piece of art**, exemplifying the beauty of the interior and keeping the legacy of an **all-Italian excellence**.

The colors and shades of the brushstrokes are harmoniously balanced to match the finishes and frame of the wooden structure.

The bookcase can be enriched with **LED lights**, adjustable in intensity with a remote control. With this additional artifice, the bookcase evokes a variety of emotions.

Beauty Extasy *experience*

The cabinet of “Borgia Collection” belongs to a **limited and exclusive series** thanks to the magnificence of its workmanship and the sumptuousness of its materials. This piece of furniture of rare beauty is the maximum tribute to many of the **Italian excellences**, an admirable jewel and a work of art to be passed down.

The exterior surface of the fine wood structure is entirely covered with **natural mother-of-pearl inlaid with aluminum** and original artistic decorations.

The **columns, with a brass core**, are expertly crafted by masters in the **artistic glass processing from Empoli**, among the most refined expressions of Italian artistic craftsmanship.

The **capitals and decorated profiles** are made of cast brass. **Masterfully hand-chiseled** by skilled craftsmen with a gold leaf finish.

The panels have milled **mirror inserts, engraved with stunning artistic decorations**.

The wooden **legs are masterfully carved** with floral patterns and artistic ornaments.

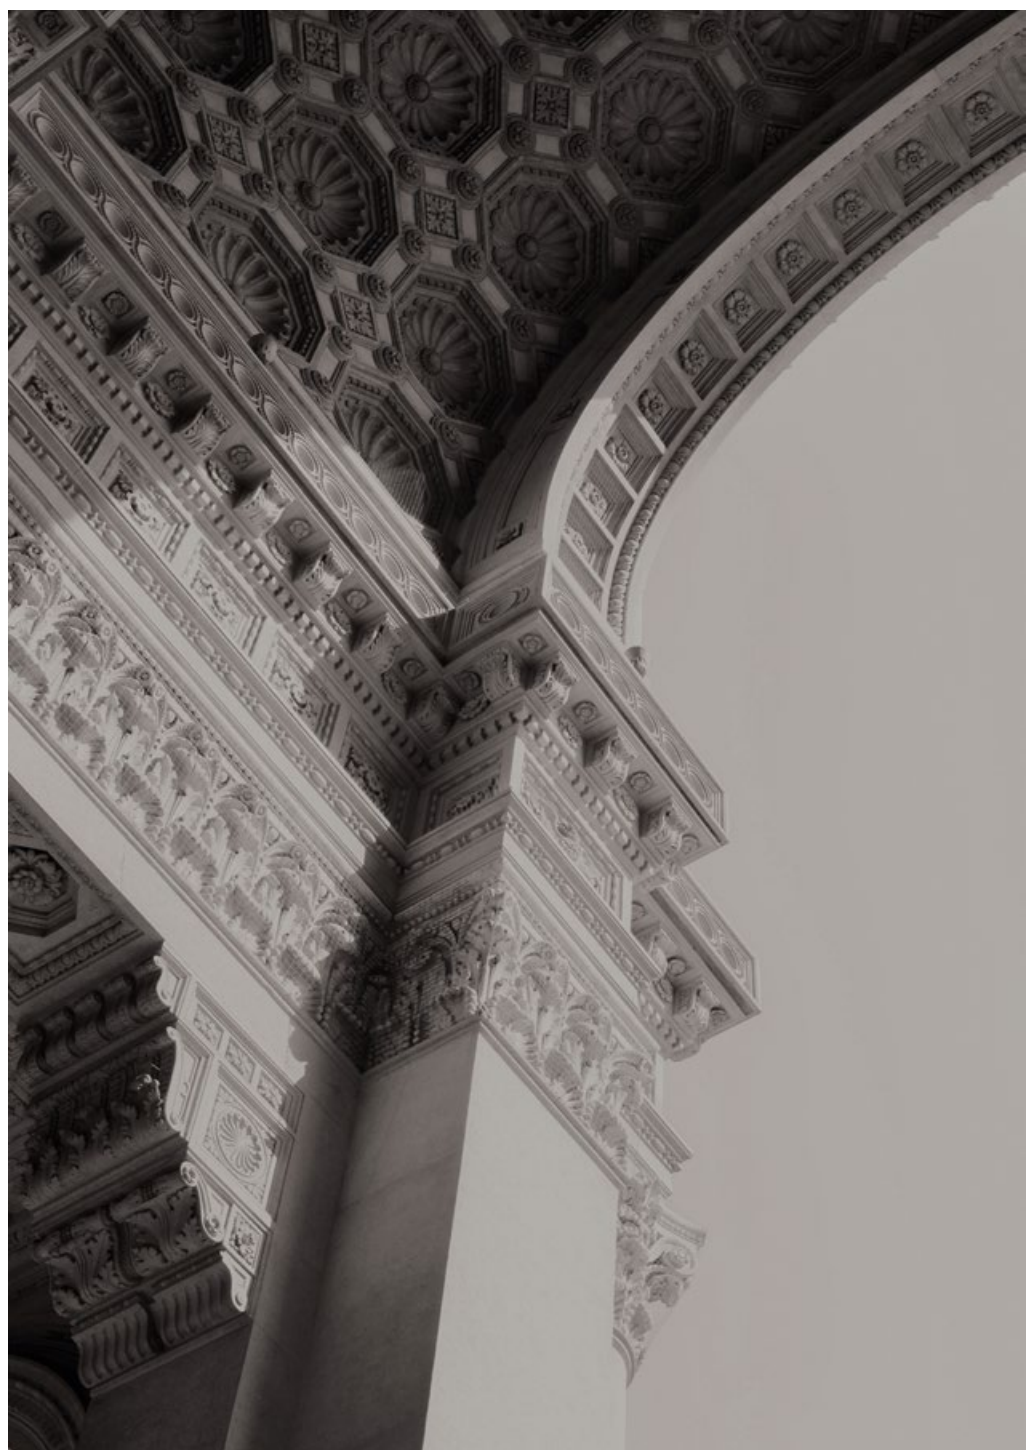

The **central aluminum door** is a riot of beauty thanks to an artistic floral composition created with **precious stones and mother-of-pearl** shells in relief.

The interior of the cabinet is as valuable as its exterior. A succession of small drawers, **secret compartments** and doors all inlaid with mother-of-pearl.

This wonderful work of art is further enriched on the top.

DINING ROOM

FEATURED COLLECTIONS:

GALATEA · AUREA · PALLADIO · VELIA
HONOS

Rock Crystal *experience*

The **HONOS dining table** is attractive for the extraordinary beauty of its **handmade top in Rock Crystal**. The **transparency characteristics** of this material make it associated with glass.

Each of the **two metal bases** is composed of three vertical arched elements and masterfully arranged to touch each other, creating dynamic volumes. A horizontal wooden element with an extraordinary **artistic finish** in relief connects the two bases.

The **special chrome painting of the bases** is enhanced by the hand-made shade from light to dark.

BelCor _ Dining chair _ Palladio Coll. _ PA0181BX

Mother of pearl *experience*

The sideboard of the new Galatea Collection truly embodies **Italian excellence**: precious materials, high-prestige craftsmanship, a scenic and emotional presence that fascinates and lasts over time.

It is an honor for us to offer a work of art that reflects the passion for our work and the commitment of many years of our family's history, full of artisan culture and love for beauty.

The fine wood structure has the external surface completely covered with **natural mother-of-pearl inlaid with brass**.

All decorations and profiles are finely **crafted in solid brass with a gold leaf finish**.

The central door shows the **mastery of brass chiseling**. An art that has very ancient origins and still used by our **master craftsmen to sculpt and engrave** the precious metal on the back of the plate, creating true works of art.

The top has been embellished with a **honey onyx marble top** which enhances the richness of the piece and embraces all the colors.

INTERIORS

MASTER GRAND PIANO

The piano from the **Aurea Collection** embodies a fusion of history, technology, craftsmanship, technical mastery and aesthetic refinement. BelCor has combined all of these elements to create a piece of irreplaceable art, destined to become both a piece of art and an investment for the future.

Unique piece *experience*

The **Jubilee model**, which features special characteristics, measures 211 cm in length. The cast iron frame is intricately decorated, crafted for a special series. The 88-key keyboard in ivory and ebony is the one that was originally made.

The piano was produced by **Blüthner** in **1915**, with serial number 94983.

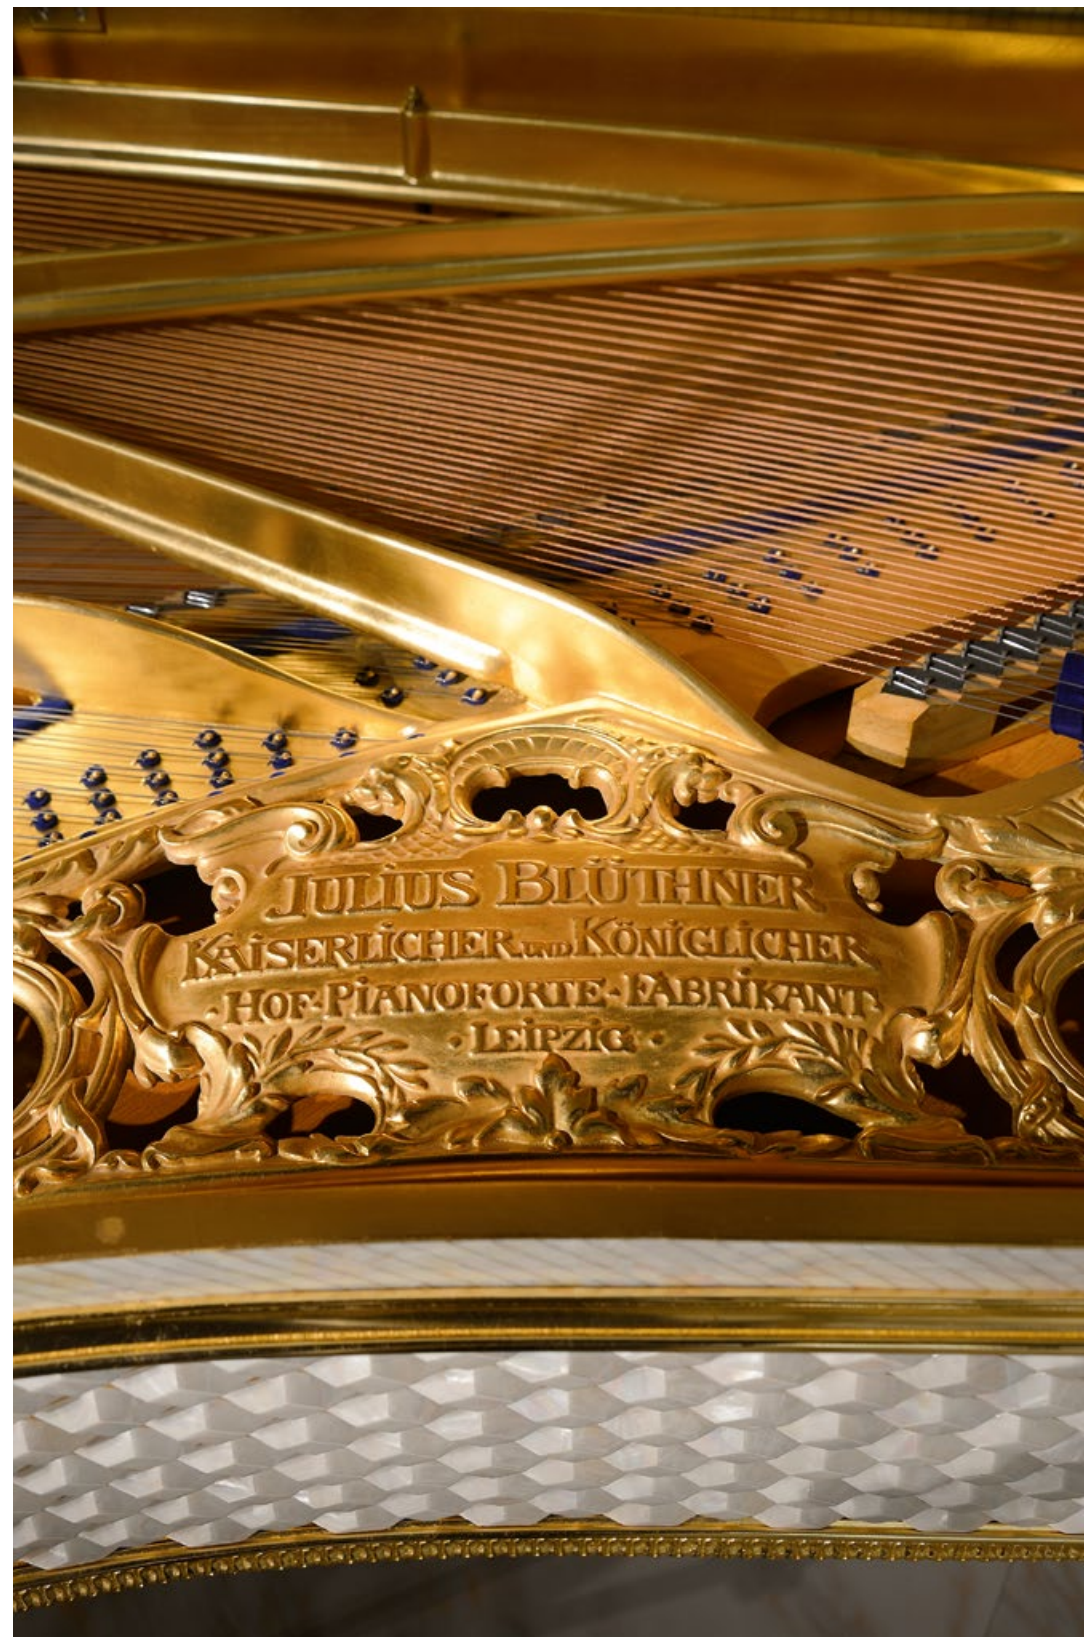

The piano has undergone a **complete restoration**, both aesthetically and technically.

The external surface is entirely covered in inlaid **natural mother-of-pearl with brass decorations**. The three-dimensional elements adorning the wooden soundboard perimeter consist of **560 rhombuses with 5-faced mother-of-pearl veneers**.

The decorations and profiles are **solid brass with a gold leaf finish**. Rectangular inserts on the legs and sides are made of **natural onyx**.

Internally, both the soundboard and the cast iron frame are finished in **gold leaf**.

At the top of the lid, a **floral painting by an artist** with pastel tones on a gold leaf base has been realized.

The technology incorporated for the **self-playing feature is PianoDisk PRODIGY**, a leading company in piano automation.

Along with the piano, an iPad with the new iOS iQ app for music playback and downloads is included. Warranty and updates are provided globally.
